

## SMILE BRIGHTER WITH OH-I-CAN *Bridging Medical and Dental Care*

### WHO WE ARE

We are a passionate team from Emory University, working to make oral health care accessible to everyone. Our group includes:

- ◆ Healthcare professionals
- ◆ Researchers
- ◆ Community partners

We believe that oral health is a key to overall well-being. It's easy to take control of your health whether you are at home or on the go!

### WHAT WE DO

At OH-I-CAN, we are pioneering medical-dental integration to revolutionize healthcare. We are breaking down the barriers between medical and dental care by:

- ◆ **Creating a Unified Health Network:** We are building a network that brings together medical and dental professionals - ensuring holistic oral health.
- ◆ **Bringing Dental Care to Medical Settings:** We are incorporating oral health care into primary care. Imagine getting your teeth and mouth examined while visiting your primary care provider!
- ◆ **Tech for Integrated Health:** Our OH-I-CAN smartphone app connects your dental and medical care. By simply answering a few questions and uploading photos or a video of your mouth, we can assess your oral health and refer you to care.

### OUR GOAL

We want to make oral health screenings as common as checking your blood pressure at the doctor's office. By catching oral health issues early, especially for vulnerable groups like seniors, we can:

- ◆ Increase oral health access
- ◆ Prevent serious health problems
- ◆ Decrease healthcare costs
- ◆ Improve overall quality of life

Join us in our mission to improve oral health - promoting healthier lives for all!

And Neighborhoods

User Guide

# How to Use the OH-I-CAN app

Download the OH-I-CAN app and conveniently snap pictures or record a video of your mouth using your own mobile device. Safely upload them for review and you will be provided with a referral to a licensed medical professional to address your oral health concerns.

1

Get started on the road to better oral health. Go to our website for step-by-step video instructions at

[www.ohican.org](http://www.ohican.org)

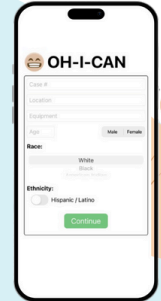

2

Search the *OH-I-CAN* app and download

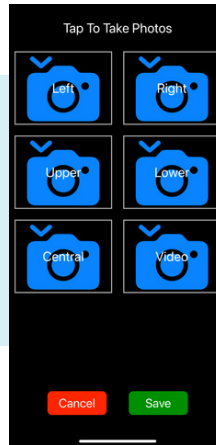

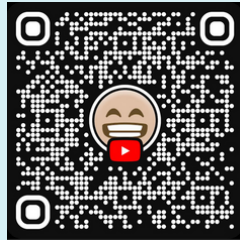

3

Submit your responses to the questionnaire

5

Scan QR Code to watch the instructional video

STEP 1: Insert Cheek Retractor

STEP 2: Take 6 Photos

A. Left   B. Right   C. Upper  
D. Lower   E. Central   F. Video

STEP 3: Click "Save" to submit

4

Snap pictures of your open mouth

6

A member of the OH-I-CAN team will contact you to discuss your findings, treatment options and referral plan

7

Use this Transportation Resource to get to your appointment

8

Receive a follow-up "Plan of Care" from your healthcare team

If you have any issues using the app, call (770) 597-6222
